# Pop-Up Dragon

## Instructions

5

Glue a small ball of cotton wool to inside base of cup.

6

Re-pierce holes

7

Add a small amount of cotton wool to inside rim of cup.

8

Attach dragon to doweling rod with Sellotape.

9

Push doweling through base.

## Notes:

Put child's initial on base of cup or tape child's name to doweling.

The addition of cotton wool to the base will stabilise the dragon and prevent the doweling from sliding out easily.
