## Professor Munakata's British Museum Adventure

HOSHINO YUKINOBU

A new and exclusive series of ten manga episodes inspired by the British Museum's collection of objects from around the world

- World-famous manga artist Hoshino Yukinobu is followed by millions of readers of Japanese manga
- The British Museum provides a unique setting for a story that delves into the history and mystery of some of the world's most iconic objects
- Meticulously detailed and beautifully drawn artwork worked predominantly in black-and-white, with some colour
- Includes bonus supplementary material including a chapter on the history of manga and an exclusive interview with the artist

Manga is a Japanese comic book art form that has become an international phenomenon in recent years. In this unique series of episodes Hoshino Yukinobu engages with history through one of his most popular characters, Professor Munakata – a fictional ethnologist who unravels the mysteries of Japan's past.

In this compilation, we embark on an exciting adventure with Professor Munakata as he becomes embroiled in a mysterious criminal plot. Worked in elegant black-and-white graphics, the episodes see the black-cloaked professor encountering mystical challenges and making deductions about some of the museum's most iconic objects.

**Hoshino Yukinobu** is Japan's leading manga artist. He has also created a science fiction series, *2001 Nights*, serialized in Japan and America.
