This giant statue of a lion was discovered in 1858 near the ancient port of Knidos (in modern Turkey). It is over two thousand years old. The eyes were probably originally inlaid with glass. It is 2.89 metres long and 1.82 metres high.

The lion statue is made from marble and weighs six-tons: the same as an elephant or a Tyrannosaurus Rex.

Walk around the lion and find its ...

- eyes
- nose
- mouth
- mane
- back paws
- tail

Now roar like a six-ton lion!
